“Sustainability to me is living in a way that respects the earth, its wildlife and natural beauty. Our Future Cities is a space for exploring innovative ideas and collaborate on bringing them to life.”

EXPERIENCE

Whilst his technical expertise lies in Mechanical Engineering, Phani has worked in a range of diverse sustainability projects involving strategic planning, research and communication. Most recently, Phani was a Sustainability and Communications Officer for ICLEI Oceania. Phani is also co-creator of a podcast series titled “Talking in this Climate,” where he facilitates discussion on issues around climate change and mitigation.
